

Rural Municipality of East St. Paul Bottomley Creek Bank Remediation and Permanent Dike Construction Update - June 7th to June 16th, 2017

Work Performed:

- Borland Construction Inc. mobilized back to the site on June 7, 2017 to begin the construction work for the permanent dike (i.e. Phase 2) of the project.
- The construction access road and lay down area has been completed at 3144 Henderson Highway.
- Arborists marked trees required for protection/pruning/clearing at 3144 and 3154 Henderson Highway.
- Removal of organics from existing dike at 3144 Henderson Highway has started.
- Removal of the clay material from the existing dike at 3144 Henderson Highway has started.
- Due to rain on June 14, 15 & 16, the site was shut down on June 15 & 16 and no work was performed, arborists to come next week to complete protection/pruning/clearing of required trees.
