10.4.1 ~ AMM Resolution for Disaster Financial Assistance for Gravel Road Maintenance

10.4.1.1 RESOLUTION: AMM Resolution for Disaster Financial Assistance for Gravel Road Maintenance

2024-169

Councillor Duval
Councillor Imhoff

WHEREAS the winter of 2023 brought above-normal precipitation in parts of southern Manitoba along with repeated bouts of record-breaking warm temperatures, shattering many long-standing records in December and February, followed by significant and unusual rainfall events in the spring of 2024; and

WHEREAS these weather events have resulted in saturated road bases and washouts, making it extremely challenging and costly for rural municipalities to maintain gravel road networks in adequate condition; and

WHEREAS these weather events have caused significant damage to gravel roads throughout southern Manitoba, making it difficult and expensive to maintain the integrity and usability of gravel roads, which are essential for the connectivity and economic stability of these communities; and

WHEREAS the financial burden of repairing and maintaining these roads has placed a significant strain on the budgets of southern Manitoba rural municipalities; and

WHEREAS the Province of Manitoba has previously committed to building more sustainable and resilient communities through meaningful partnerships and financial agreements with municipalities for services such as gravel road maintenance; and

WHEREAS the Disaster Financial Assistance (DFA) program by the Manitoba Emergency Management Organization provides financial assistance for uninsurable losses to essential property, which includes infrastructure such as roads; and

WHEREAS municipal budget for repairs is insufficient to address the extraordinary costs incurred for gravel road repairs and maintenance due to the severe weather impacts;

THEREFORE BE IT RESOLVED that the Association of Manitoba Municipalities urgently request the

Province of Manitoba to provide disaster financial assistance to rural municipalities in southern Manitoba specifically for the purpose of gravel road rehabilitation and maintenance related to the damaging effects of the 2023/2024 winter weather and spring rainfall events.
